

Good Morning,

Following the latest CDC recommendations and announcements of extended Spring break by all area schools, the Pulaski County Library District has made the difficult decision to close the libraries for this week (March 16-21, 2020), at least. This includes the Crocker, Richland, and Waynesville Libraries. We will announce a reopening date as soon as possible. During this time, all programs and outside use of our meeting rooms will also be cancelled. The due dates for all items currently checked out will be extended to one week after we reopen, so feel free to wait to bring them back to us.

More updates will follow. Although the libraries will be closed, there are still many library services available:

- WiFi is available in the library parking lots.
- All e-resources are still available. Visit pulaski county.lib.mo.us for information about checking out e-books, downloadable audiobooks, language learning, The Great Courses, Acorn TV, and craft and diy classes with Creativebug.

Stay safe and be well,
Emily Slama, Director
Pulaski County Library District
